

➔ Education, training and development

FADE's consultants have a long and successful history of working with the wider community. FADE regularly works with the communities of teaching and education, young people, industry, parents and caregivers and sports. All our services are individually customised whilst working alongside nominated staff from your team.

➔ For teaching and education and other communities

- Training workshops for teachers and health professionals
- Health & PE curriculum support
- Awareness presentations
- Policy development and implementation
- Specialised programme development, for example NZQA Unit 548 provision

➔ For industry

- Advice, support and facilitation for workplace alcohol & drug policy development and implementation
- Training workshops for managers/supervisors/team leaders/employees
- Staff education and awareness workshops
- Health & safety meeting facilitation

➔ Resource development & provision

FADE maintains comprehensive up-to-date resources comprising of a website, fact sheets, brochures, books, videos, units of work, CD Roms and posters. Materials include those produced by FADE and other New Zealand organisations as well as resources produced overseas. FADE's resources are detailed in the Foundation's **Resource Catalogue**. This is readily available and includes an order form for ease of purchase.

➔ **Contact: resources@fade.org.nz for your personal copy.**

FADE's resources can also be viewed and ordered directly from our website. Visit: www.fade.org.nz/resources

➔ Workplace alcohol & drug policy development

'Safety' is the most compelling reason for a company to consider an alcohol and drug policy. It is highly defensible from a legal standpoint and is prominently and repeatedly emphasised in quality policies. Safety aside, alcohol and drug abuse has other well recognised detrimental effects in the workplace. Decreased productivity, staff turnover, absenteeism, employee theft, product defects, increased insurance and compensation costs are all indicators that alcohol and drug use may be an issue to grapple with.

In view of the above, it is a wise precautionary step for any employer to instigate the development of an alcohol and drug policy.

Let FADE help you do just that

➔ WE CAN:

- Assess your company's needs
- Assist policy development and implementation
- Conduct audits
- Facilitate effective communication between management, staff, unions and OSH
- Provide quality education and awareness workshops for all employees
- Develop and provide quality resource materials
- Provide excellent training for supervisors and managers
- Facilitate drug testing EAP requirements
